

Certified Counter-Insider Threat Program - Analysis (CCITP-A) Certification Maintenance Form

This form serves to aid CCITP-A certificants in tracking Professional Development Units (PDUs) obtained to maintain the CCITP-A certification. Certificants are fully responsible for tracking their PDUs throughout the maintenance cycle. Additional guidance regarding submission of this certification maintenance form will be provided at a later date. *Please note: certificants understand that their PDUs are subject to audit. Therefore, it is strongly recommended that certificants obtain physical documentation of PDUs acquired. Such physical documentation can be in the form of receipts, confirmation emails, PDU letters, etc.*

Per the Certification Maintenance Policy, the CCITP-A certification is valid for a period of three (3) years from the date of conferral. In order to prevent the certification from lapsing, certificants are required to complete a minimum of 100 Professional Development Units (PDUs) over the course of their 2-year maintenance cycle in order to successfully maintain their CCITP-A Credential. The 100 PDUs are divided between C-InT specific activities and general professional growth activities in the following manner:

- C-InT Specific: 50 PDU
- Professional Growth: 50 PDU

There are three (3) general categories in which a Certificant can earn PDUs:

- Unique work experience (e.g., special projects, job shadowing/rotations, achievements, professionalization projects)
- Training, education, additional Certification(s)
- Giving back to the community (e.g., leadership in teaching, mentoring, conferences, workshops, papers)

All certification maintenance information can be found in the Certified-Counter-Insider Threat Professional Program (CCITP) [Candidate Handbook](#). If you have any questions about the requirements or need additional information about the events and number of PDUs awarded for each event, please email OSD.CINT-Certification@mail.mil.

Provided on the next page is the CCITP PDU Reference Table which breaks down each category, respective event types, the PDU Rate, Max PDUs per Event, and Max PDUs per category.
